Example Recommendation:

Hey, thanks for the info! Here is the product combo that is best for you! Renew Shampoo, Smoothing Deep Conditioner, Mousse and Curl Cream. Renew shampoo is a moisturizing shampoo that will give your hair the hydration and softness it needs without being too much for your hair. It helps to repair damage and restore a proper moisture balance to your hair. Smoothing Deep Conditioner works on all hair types to give hydration, control frizz, and add softness and shine. It is light enough for daily use and does not weigh hair down. The mousse is not what you likely picture when thinking of mousse.... "crunchy" curly hair. This product is amazing for non "wet" scrunched curls or even volume at the roots when blow drying! Curl cream is every curly haired girl's dream. I have not met anyone that doesn't fall immediately in love! It highlights natural wave and curls without giving weight or crunch to the style. You can scrunch your hair, diffuse it, air dry or even add to heated loose curls for extra hold. It is a major favorite. Products last 3-5 months and they all come with a 30-day money back guarantee!
